

With over 100 years of combined industry experience, Sound Barriers professional sales staff will work effectively with you to ensure your complete satisfaction on your next project.

At Sound Barriers we take pride in delivering quality service, at all levels.

Whether supplying parts, providing on-site repairs/retrofits or complete installations, contact us to learn why Sound Barriers is . . .

"The Recreation Centre Professionals"

DASHER BOARDS

Sound Barriers manufactures and installs dasher board systems designed to meet every possible ice arena requirement.

Sound Barriers can provide economical, permanently installed dasher board systems for the community centre looking to refurbish or upgrade.

We can also manufacture and install a prefabricated, removable dasher board system for the community centre designed for activities that include more than just ice events.

Sound Barriers can supply shielding up to 8 feet high and all shielding systems are designed to meet today's safety guidelines.

Aluminum player and machine gates and zinc-plated hardware are standard components of every dasher board system produced by Sound Barriers.

PS-S-01

PERMANENT STEEL

- This system utilizes hot dipped galvanized steel horizontal stringers*
- Stronger frame and less long-term maintainance*
- Welded on-site frame provides extreme perimeter strength and design flexibility*

PF-A-01

PRE-FABRICATED ALUMINUM

- Naturally evolved from steel prefabricated system*
- Lighter frame*
- A standard for multi-use Facilities*
- Aesthetically pleasing finish*
- A greater reduction in potential corrosion*

PF-S-01

PRE-FABRICATED STEEL

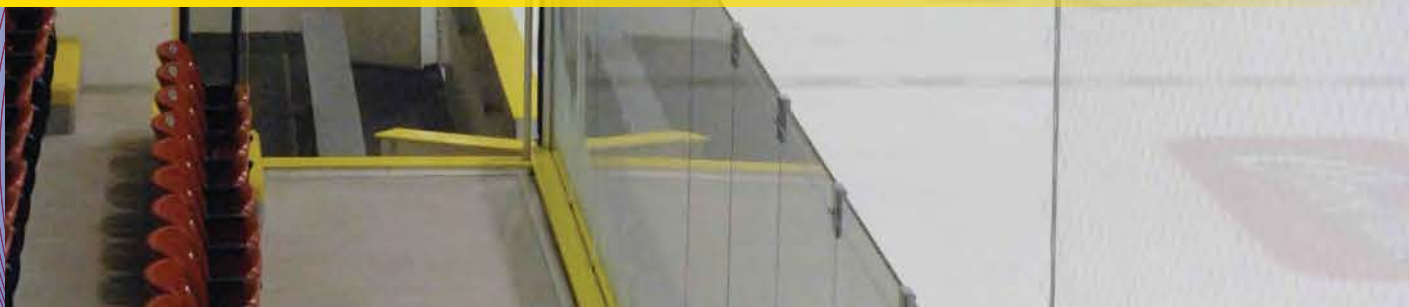

- Eight foot sections of welded steel
- Hot dipped galvanized
- Polyethylene Board Cladding
- Quality controlled fabrication
- Packaged and shipped to site
- Reduces on site installation time

PF-AS-01

PRE-FABRICATED ALUMINUM SEAMLESS

- Provides an unrestricted view of the event surface - no vertical mullions
- Option upgrade can be installed on entire perimeter or specific sections
- Tempered glass shielding is installed in a groove within dasher top
- Supports appear at gate locations only, and are reduced in height

PW-S-01

PERMANENT WOOD AND STEEL

- The most economical dasher system available today
- Incorporates hot dipped galvanized vertical steel posts around perimeter
- Horizontal wooden stringers are attached to posts
- Aluminum removable sections can be incorporated into this system
- Completed with 1/2" thick polyethylene cladding/tempered glass shielding/aluminum supports

MACHINE & ACCESS GATES

Sound Barriers aluminum frame machine and access gates are lighter for easier operation by younger players. The lighter weight also reduces stress on hinges and hardware providing a longer life span.

Sound Barriers gates are custom manufactured for each application, ensuring a perfect fit for your dasher board system.

BOXES & BENCHES

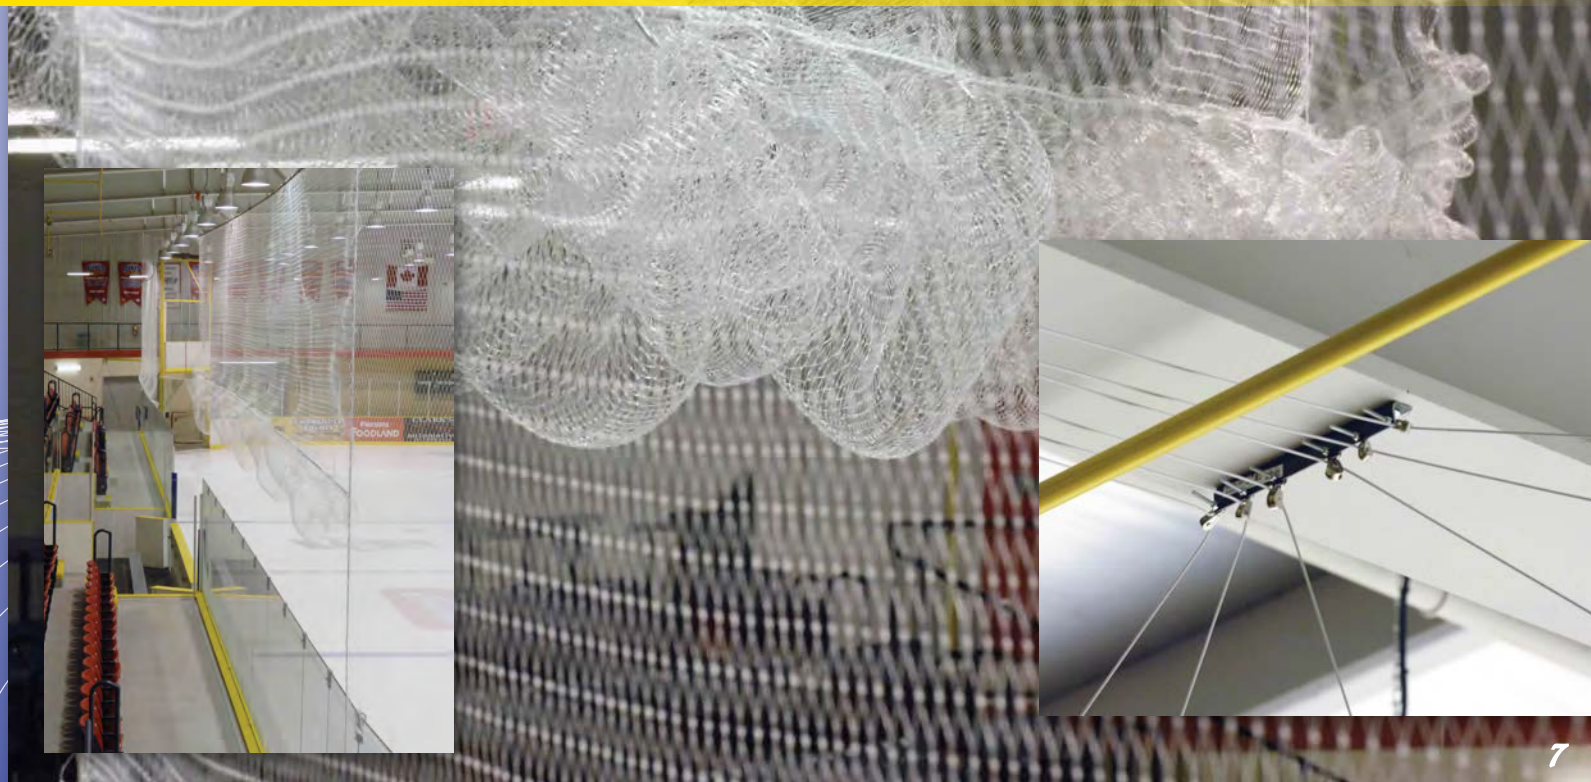

Sound Barriers Player, Penalty and Timekeepers' boxes are custom designed to your requirements.

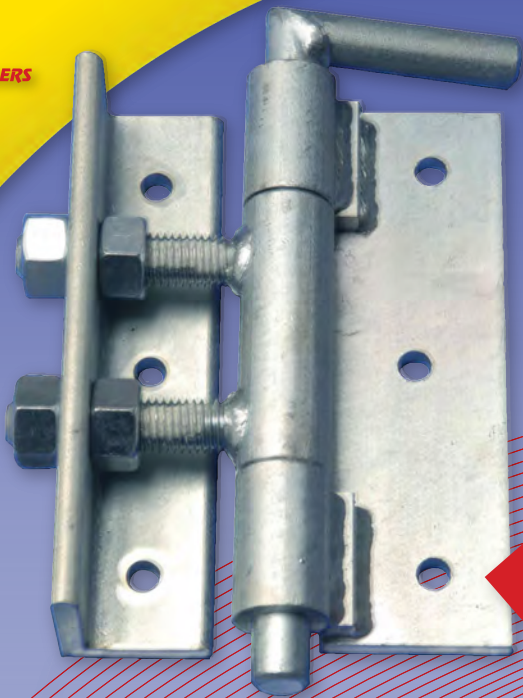

Sound Barriers benches are available in both wall and floor mount configurations for installation in your player/penalty boxes or in your dressing rooms. Our benches are manufactured with zinc plated steel brackets with bench top options of: recycled plastic lumber or virgin HDPE. All benches are custom fitted to your requirements.

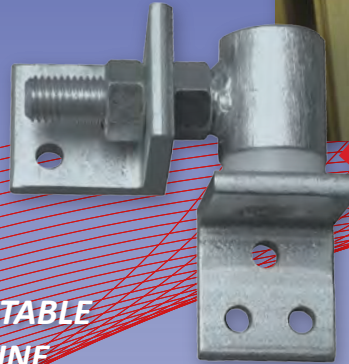

SAFETY NETTING

Available in white or black nylon, or clear monofilament. Retractable netting also available.

Composites

SANIGRID® II

Sanigrid II is an all-fiberglass ceiling grid system that will resist moisture in high humidity and chemical environments.

Sanigrid II will not rust, pit, dent, or peel like metal grid systems and it is very easy to install. The new Sanigrid II system uses a series of pre-notched main tees and cross members to lock the grid together.

GLASBORD®

Glasbord® frp, with Surfaseal® finish, is a moisture resistant, easy to install, tough, and easy to clean wall and ceiling panel. Glasbord is the only frp panel to feature Surfaseal, a sealed protective finish. Surfaseal's engineered finish offers a number of advantages that makes it superior to other frp panels.

Glasbord with Surfaseal is resistant to scratches, abrasions, staining, and damage due to harsh chemicals. In fact, it is up to 10 times easier to clean than other frp panels and up to 6 times more stain resistant. Glasbord is available in different colours and finishes, and can be cut and drilled for easy installation.

As Supplied By: 

Triumph Stadium Seating is designed for comfort, ease of use, performance, durability and sporting good looks.

Plastic backs and seats have a smooth surface for easy cleaning and are constructed of double-wall blow moulded polyethylene with anti-static compounds.

PERMA-CAP

Perma-Cap vinyl bleacher covers are your most cost-effective way to protect your bleachers, and your fans. A durable, maintenance-free vinyl bleacher cover that fits over your existing wood or aluminum bleachers, Perma-Cap bleacher covers are a cost-effective upgrade for indoor or outdoor grandstands or indoor telescopic bleacher seating.

Game after game, season after season, year after year, Perma-Cap vinyl bleacher covers play strong defense against tough weather and exuberant fans, while seating your audience in comfort.

RESISTALL PARTITIONS.

New Resistall Partitions stand tough over time with many features and benefits. Unlike metal partitions, they are impermeable to moisture and will never rust or need painting.

In addition, Resistall Partitions will not delaminate and are built to resist mildew, odours, corrosion and dents, saving you the added costs of maintenance.

HINY HIDERS.

Constructed from premium, 1" solid HDPE with a homogenous colour throughout, Hiny Hiders bathroom partitions lay claim to one of the longest life cycles in the industry.

Scranton Products HDPE plastic resists dents, scratches, corrosion, graffiti and mildew - and will absolutely never rust.

TUFFTEC LOCKERS.

Tufftec lockers and benches are manufactured to be stylish and resilient. Customizable and engravable options mean not having to choose between beauty or resilient functionality.

Tufftec is designed to be bacteria resistant, dent resistant, power washable and much more.

DURALIFE LOCKERS.

Introducing Duralife Lockers

The only HDPE plastic locker that is fully fire rated for your corridor application. Specially designed to meet the demands of the school environment.

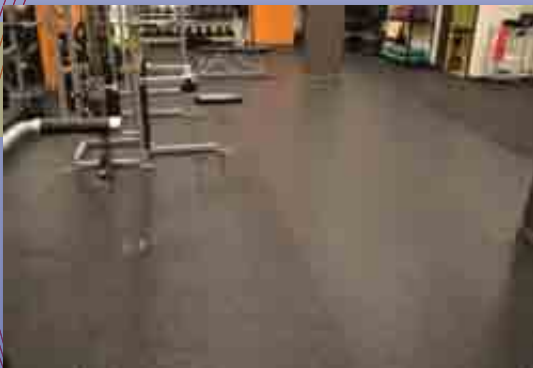

Duralife Lockers are built to withstand the harshest daily use.

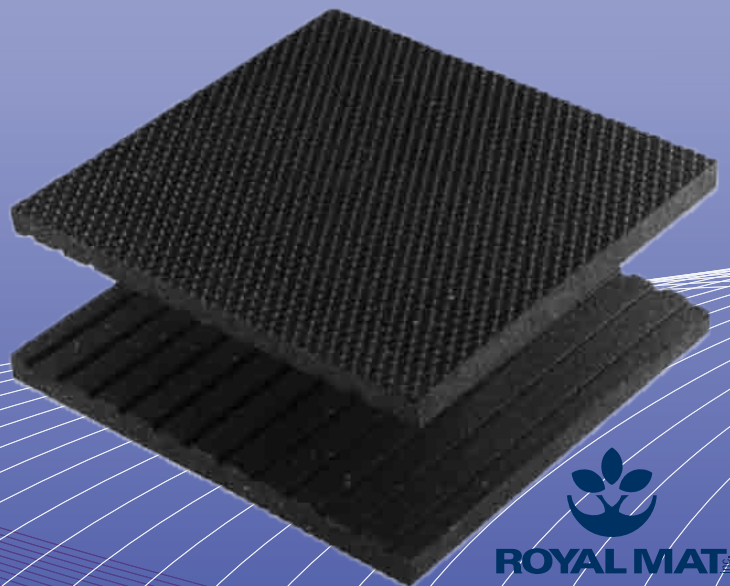

FLOORING

SPORTFLOOR®
PERFORMANCE RUBBER FLOORING

Sound Barriers carries a wide range of vulcanized rubber flooring products to suit your recreational needs.
